EXPERIENCE

Android Developer — NineSol Technologies

May 2025 - Sep 2025 | Islamabad. Pakistan.

- Refactored and modularized the existing codebase to make it more scalable and maintainable, enabling faster feature development and onboarding.
- Led the migration to Android Data Binding, reducing boilerplate code and enhancing UI logic separation from business logic.
- Championed clean code principles (SOLID, DRY, separation of concerns), significantly improving code readability, reusability, and team collaboration.

Android Developer — App In Snap

Sep 2023 - May 2025 | Islamabad. Pakistan.

- Built scalable and maintainable UIs using modular design principles, improving overall app usability and visual consistency.
- Integrated REST APIs with robust error handling, ensuring reliable data flow and seamless user interaction.
- Refined and debugged codebase extensively, resulting in improved app stability, performance, and reduced crash rates across releases.

Android Internship — App In Snap

Jan 2023 - Sep 2023 | Islamabad. Pakistan.

RF DT Engineer – Telecom Sub-Contractors

Jan 2017 - Jan 2023 | (Islamabad, Lahore, Karachi)

PROJECTS

LasPay — App In Snap

- Developed seamless backend communication through REST APIs and SDK Integration.
- Leveraged third-party libraries to boost functionality and speed up development.
- Crafted modern, user-friendly UIs for smooth interaction and accessibility.

AgentMate — App In Snap

- Built robust API-driven architecture with integrated SDKs.
- Utilized external libraries to enhance features while maintaining performance.
- Delivered responsive, guideline-compliant designs for an engaging

SKILLS

Programming Languages

- Kotlin
- Dart (Basic)
- Java (Basic)

Network Communication

- REST API
- Retrofit

DB Management

- Firebase Database
- Room
- SharedPreferences

UI Framework

- Jetpack Compose
- XML

UI Architecture & State Management

- LiveData
- Flow
- MVVM
- Data Binding
- View Binding
- Navigation Components

Version Control

- Git

LANGUAGES

English

Working Proficiency

Urdu

Native proficiency

experience.

BankIslami – App In Snap

- Established efficient backend connectivity with REST APIs and SDKs.
- Designed clean, intuitive interfaces optimized for Android standards.

PERSONAL PROJECTS

- Default Google Messaging App
- QR to Text & Text to QR App
- Quotes App
- Movies App
- Google Maps App
- Password Manager
- Notes Taker App

EDUCATION

BSc. Telecom Engineering – IUB

Sep 2012 - Sep 2016 | Bahawalpur, Pakistan.
